

THE ALL-NEW SUZUKI

e VITARA

SUZUKI
GOOD DIFFERENT

WELCOME TO GOOD DIFFERENT

*Our service activated warranty is available to UK customers on Suzuki cars under 10 years old and under 100,000 miles. Provides cover after the 3-year/60,000-mile manufacturer's warranty. Activates on the first qualifying service after the manufacturer's warranty ends. Valid for 12 months or (if lower) 9,000/12,500 miles (mileage cap varies based on model's service interval) and renews on each subsequent qualifying service, up to a maximum of 10 years of cover from the date of first registration or (if lower) 100,000 miles. A qualifying service is one carried out by a Suzuki service partner in accordance with the applicable Suzuki service interval. Cars without a full, up-to-date Suzuki service history will be subject to an initial health check and any identified faults will be excluded from warranty cover unless repaired at owner's cost during the qualifying service. Terms & exclusions apply, see cars.suzuki.co.uk/owners/warranty

Since 1955, we've been crafting feel-good, personality-packed cars that are proudly different. Good different.

Yep, we're all about doing things a little differently – by offering the latest Suzuki tech, top specs and genuinely great value every single time.

Our diverse line-up includes mild, full and plug-in hybrids, as well as our first-ever all-electric Suzuki! There are manual and automatic transmission options too, including optional 4WD available on certain specs. Whatever your preference – from nippy hatchbacks to adventure-ready SUVs – expect loads of impressive tech and handy features as standard. Your local dealer is always on hand to discuss your options and help find the Suzuki that works for you. We also know that delivering a confident drive is all-important. That's why we back it all up with a warranty of up to 10 years* (yes, 10!) and a nationwide network of friendly dealers you can rely on whenever you need them.

Don't just take our word for it – chat to your local dealer, get behind the wheel with a test drive and experience all Suzuki has to offer for yourself.

SUZUKI. GOOD DIFFERENT.

COULD THIS BE THE EV YOU'VE BEEN **LOOKING FOR?**

Built on our rich heritage and decades of Suzuki SUV know-how, the e Vitara boasts a strong, muscular stance, with an authentic SUV presence and high-quality interior design.

Designed to keep you connected, comfortable and confident on every adventure, it's packed with impressive tech, a range of driver assistance features and a suite of safety equipment as standard. You can also look forward to a smooth, responsive and efficient electric drive, with a dependable range and flexible charging options to fit around your routine.

And to top it all off, you get the peace of mind of knowing that both the car and battery are covered by a warranty for up to 10 years*.

*Our service activated warranty is available to UK customers on Suzuki cars under 10 years old and under 100,000 miles. Provides cover after the 3-year/60,000-mile manufacturer's warranty. AN AUTHENTIC **SUV**

We've been perfecting our 4WD tech for over 55 years, so it's safe to say we know a thing or two about what makes a proper SUV. And that's exactly what e Vitara is...

STRIKING SUV STYLE

With sculpted lines, rugged design features and distinctive 18 or 19-inch alloys, this is a stylish SUV through and through. There's an integrated rear roof spoiler, high ground clearance for an assured drive on bumpier surfaces, and 3-point matrix LED headlights to clearly light the way.

A SOPHISTICATED FEEL

Inside, quality materials and refined surfaces give the cabin area a genuine premium feel. While a sleek integrated display system helps you stay connected, you can create your perfect mood with customisable interior ambient lighting. Slide and recline rear seats offer plenty of flexibility – so you can enjoy increased boot space or additional rear passenger legroom, depending on what you need.

CONFIDENT AND CAPABLE

Tall, wide proportions and strong, agile wheels give e Vitara a bold presence and undeniable confidence, while the high driving position puts you in control with a clear view of the road ahead.

DRIVE YOUR WAY

The e Vitara delivers a customised driving experience tailored to your driving style. In addition to three selectable modes – NORMAL, ECO and SPORT – there are two further options for added performance and peace of mind in more demanding driving situations:

SNOW MODE: Available on our 2WD models, this mode gives you extra control and confidence by improving your grip in snow and ice.

ALLGRIP-e 4-WHEEL DRIVE: Exclusive to our 4WD models, the new dual-motor ALLGRIP-e system is built to tackle whatever the road (or off-road) throws your way with added control, stability and precision. AUTO mode adapts to changing road conditions for smooth handling, while TRAIL mode helps you exit slippery surfaces by braking or sending power to the wheels that need it most.

ALL THE TECH YOU COULD NEED (AND WANT) AS STANDARD

We're serious about making your journeys safer, more convenient and more comfortable. That's why the e Vitara is packed with a whole range of advanced tech as standard, including (but definitely not limited to) all these features*:

ADAPTIVE CRUISE CONTROL

As the miles tick by on the motorway, your speed can be automatically adjusted to maintain a safe distance from the car ahead – making long-distance driving smoother and stress-free.

KEYLESS ENTRY & START

Hands full? You can simply walk up to your car and open the doors without touching your keys, as long as they're on you somewhere. The same goes for starting the car – just press the START/STOP button and off you go.

REAR-VIEW CAMERA

Reversing just got (even) easier. The rear camera gives you a clear view behind, helping you park with peace of mind in even the tightest of spaces.

REAR CROSS TRAFFIC ALERT

Rear Cross Traffic Alert can help take the stress out of reverse parking by giving you a helpful heads-up if it detects an approaching vehicle.

BLIND SPOT MONITOR

It's always good to know that someone's looking out for you. This handy feature can alert you when a vehicle enters your blind spot, helping you to change lanes more safely.

LANE DEPARTURE PREVENTION & LANE KEEP ASSIST

Designed to reduce the risk of lane drifting, this system provides alerts and gentle steering assistance, including when Adaptive Cruise Control is activated.

FRONT & REAR PARKING SENSORS

Just one parking space left, and it's a tricky one. Don't worry – tackle it with confidence thanks to front and rear sensors that alert you if you get close to an obstacle.

AUTO HIGH/LOW BEAM HEADLIGHTS

Night driving can be a challenge. For better visibility and to avoid dazzling other drivers, your headlights will automatically switch between high and low beams depending on oncoming traffic and the lighting in the area.

3 YEARS' FREE CONNECTED SERVICES

Take your e Vitara experience to the next level with Connected Services on the Suzuki Connect App. Check your battery level in just a few taps, turn on your heated seats before you even step outside, lock your car doors from anywhere, and get service alerts when your Suzuki needs booking in for some TLC. And the best part? You'll get a free 3-year subscription on us!**

*Driver assistance and safety features are subject to speed and other limitations and their performance can be affected by road, traffic and environmental conditions. You must not rely on these aids alone to ensure safety. Drivers are at all times responsible for maintaining control of their vehicle, driving safely and complying with the Highway Code and applicable laws. For detailed information about the operation and limitations of safety features, please speak with your local Suzuki dealer or refer to the owner's handbook.

**Suzuki Connect is free for the first 36 months. At the end of this period, membership will not auto-renew and you will have the option of paying monthly, paying annually or cancelling the service.

**EMBRACE LIFE IN
ELECTRIC**

From exhilarating performance to potential cost savings and zero tailpipe emissions, there's loads to love about life with an EV. We even have a variety of battery options available – just choose the one that delivers the performance and range you need.

ELECTRIC PERFORMANCE

Instant torque, responsive acceleration and smooth handling make electric driving comfortable and plenty of fun. Plus, with a near-silent electric motor, it can be peaceful too.

A RELIABLE RANGE

Ready for your routine – and beyond – e Vitara can drive for up to 265 miles on a single charge*. That means you can confidently take on your daily commute, weekend getaways and just about everything in between.

EFFICIENCY BUILT-IN

Worried that using climate control could reduce your driving range? Don't stress. A heat pump is fitted as standard to efficiently warm up your cabin, reduce strain on the battery, and help preserve range even on the coldest mornings. And talking of frosty starts, you can also raise the battery temperature before or whilst driving for more efficient charging (batteries charge best when they're not feeling chilly).

CHARGING THAT WORKS FOR YOU

Time to charge your e Vitara? Choose from a range of solutions to suit your routine. Home

charging is easy and efficient, letting you plug in your car to charge overnight, just like you would your phone. If you have any questions or reservations about installing a home charger, don't worry – we're here to help you all the way.

Out and about? Embrace the UK-wide network of public stations, many offering rapid charging solutions so you can boost your battery from 10-80% in just 45 minutes**. That's about the time it'll take you for a sandwich stop!

Have any questions? Just chat to your local dealer and they'll be happy to explain things further.

*The 265 mile quoted range is based on a 61kWh 2WD model. Fuel economy and CO₂ results for the Suzuki e Vitara range – mpg (l/100km) (combined): Not applicable. CO₂ emissions: 0 g/km. Electric range: 214 to 265 miles. Electricity consumption combined (kWh/100 km) from 14.8 to 16.5. The e Vitara is a battery electric vehicle requiring mains electricity for charging. These figures were obtained after the battery had been fully charged to 100%. Charging to a maximum of 80% is recommended. The electric range shown was achieved using the WLTP test procedure. Figures shown are for comparability purposes. Only compare figures with other cars tested to the same technical procedures. Figures may not reflect real-life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), weather conditions, driving styles and vehicle load.

**Charging times vary depending on a range of factors, including charger type and condition; ambient temperature; battery temperature, age, condition and state of charge; and the use of battery safeguarding technology. Charging to a maximum of 80% is recommended. The quoted charging speed of 45 minutes is based on charging an e Vitara with a 61kWh battery from 10% to 80% and requires a minimum 70kW rapid DC charger, which is only available on public charging networks (see <https://www.zap-map.com/live/> for information on availability). Charging on a common 7kW AC home charger will charge the e Vitara with a 61kWh battery in 9 hours from 10 to 100% and a 49kWh battery in 6 hours and 30 minutes from 10-100%. Charging on a 11kW AC fast charger will charge the e Vitara with a 61kWh battery in 5 hours and 30 minutes from 10 to 100% and a 49kWh battery in 4 hours and 30 minutes from 10-100%.

UPGRADE TO ULTRA

Along with the great range of tech included as standard across the e Vitara range, 'Ultra' models come with yet more compelling features...

19-INCH ALLOY WHEELS

Wherever you're driving, the stylish, eye-catching design is sure to attract admiring glances.

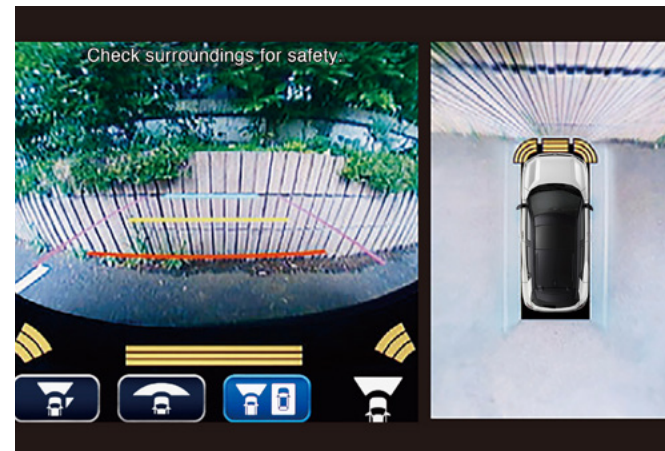

PREMIUM AUDIO SYSTEM

Whatever's on your playlist, the Infinity by Harman speaker system with subwoofer takes your audio experience to the next level, with exceptional quality and clarity.

GLASS ROOF

The sleek glass roof adds style, sophistication and plenty of natural light to your cabin – and it comes with a sliding sunshade if you need a break from the sun.

360-DEGREE VIEW CAMERA

Want some extra support when parking into those tight spaces? The 360-degree camera has you covered with a total view of your surroundings.

ADJUSTABLE DRIVER'S SEAT

For maximum comfort tailored to you, the 10-way, power-adjustable driver's seat comes with lumbar support, recline, slide and lift options.

WIRELESS PHONE CHARGER

Phone out of battery and forgotten your charger? No stress. There's a wireless charging tray for a battery boost whenever you need it.

**ELECTRIC MADE
EASY WITH SUZUKI**

We get that switching to electric driving can be a big decision. That's why, with Suzuki by your side, you've got real support, trusted know-how, and a warranty that's built to go the distance.

WARRANTY OF UP TO 10 YEARS

We're so confident in the quality of e Vitara (and all our other cars) that it comes with a warranty of up to 10 years, covering both the vehicle and its battery. You just need to have a qualifying service with Suzuki to stay covered*.

TOP-NOTCH CUSTOMER SERVICE

Taking care of you is what we do best, and we're proud to have a track record when it comes to great customer service. Whether you're getting to know the driving tech or settling into electric life, your local dealer will be with you every mile of the way.

DECADES OF EXPERTISE

The very first Suzuki 4x4 vehicle rolled off the production line in 1970. More than five decades later, all our accumulated know-how, innovative thinking, pride and passion find their latest expression in the all-new e Vitara.

**Shaped by the needs of our drivers,
it might just be the EV you've been
looking for.**

*Our service activated warranty is available to UK customers on Suzuki cars under 10 years old and under 100,000 miles. Provides cover after the 3-year/60,000-mile manufacturer's warranty. Activates on the first qualifying service after the manufacturer's warranty ends. Valid for 12 months or (if lower) 9,000/12,500 miles (mileage cap varies based on model's service interval) and renews on each subsequent qualifying service, up to a maximum of 10 years of cover from the date of first registration or (if lower) 100,000 miles. A qualifying service is one carried out by a Suzuki service partner in accordance with the applicable Suzuki service interval. Cars without a full, up-to-date Suzuki service history will be subject to an initial health check and any identified faults will be excluded from warranty cover unless repaired at owner's cost during the qualifying service. Terms & exclusions apply, see cars.suzuki.co.uk/owners/warranty

CHOOSE YOUR eVITARA

Take a look at the e Vitara line-up below and pick your favourite.

It's a range that's elegant in its simplicity. Choose the Motion model and you'll get bold SUV styling, electric efficiency, plus loads of high-spec features and smart tech included as standard. And if you fancy something that delivers that little bit extra, the Ultra is the way to go.

MOTION

The Motion is packed with:

- 18-inch alloy wheels
- Rear privacy glass
- Dual Sensor Brake Support
- Lane Keep Assist & Lane Departure Prevention
- Traffic Sign Recognition
- Blind Spot Monitor & Rear Cross Traffic Alert
- Rear view camera
- Front & rear parking sensors
- LED headlights & daytime running lights
- Integrated display system (10.25-inch meter display & 10.1-inch centre display combined)
- Navigation system
- Suzuki Connect connected services with 3-years' free subscription (including remote A/C and battery pre-conditioning)
- Keyless entry & start
- Grey interior trim with fabric seat upholstery

ULTRA

After even more tech and spec?

Meet the Ultra – offering all the same features as Motion, plus:

- 19-inch alloy wheels
- Adaptive high-beam system
- 360-degree camera
- LED front foglamps
- Glass roof
- Infinity premium audio system with subwoofer
- Wireless phone charger
- Half-synthetic leather seat material
- 10-way power adjustable driver's seat
- Choice of grey or tan/grey interior trim colour (fixed combination based on exterior body colour choice)

CHOOSE YOUR COLOUR

Is green your go-to shade? Maybe you're all about that monotone vibe? No matter your style, you can choose from a range of single and dual-tone exterior colours to make the e Vitara just your type. And whichever exterior shade you go for, you can be sure that the interior will complement it perfectly.

e Vitara comes in a range of colours, so you can stand out wherever you take it.

Stylish single-tone shades are available across the range, while the Ultra model also comes with dual-tone options. Most models and colours come with a stylish grey interior. If you choose an Ultra model in Splendid Silver Pearl Metallic or Land Breeze Green Pearl – whether single-tone or dual-tone – your interior will be an elegant tan colour instead.

cars.suzuki.co.uk/new-cars/e-vitara

Fuel economy and CO₂ results for the Suzuki e Vitara range. Mpg (l/100km) (combined): Not applicable. CO₂ emissions: 0 g/km. Electric range*: 213 to 264 miles. Electricity consumption combined (kWh/100 km) from 14.9 to 16.6. *The e Vitara is a battery electric vehicle requiring mains electricity for charging. These figures were obtained after the battery had been fully charged to 100%. Charging to a maximum of 80% is recommended. The electric range shown was achieved using the WLTP test procedure. Figures shown are for comparability purposes. Only compare figures with other cars tested to the same technical procedures. Figures may not reflect real-life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), weather conditions, driving styles and vehicle load. Specifications and equipment vary depending on model grade. Please contact your local Suzuki Dealer for full details. All details correct at time of publication – July 2025.
